ONE MAN OPERATES 32 MACHINE TOOLS -- Kommunist, No 20, 24 Jan 50

A new line of machine tools for the machining of motor blocks has been installed at the Moscow Automobile Plant imeni Stalin, which consists of 16 coupled pairs of machines working simultaneously. The line is 18 meters long and is operated by a single person instead of 50, as formerly required.

Moskovskiy Bol'shevik, No 26, 31 Jan 50

A full-length motion picture titled The Plant imeni Stalin has just been released. It is a documentary depicting the life story of the plant.

AUTO PLANT MAKES OPERATIONS AUTOMATIC -- Pravda, No 59, 28 Feb 50

The Gor'kiy Automobile Plant imeni Molotov has installed an automatic trimming machine to replace hand labor in the gray iron shop. The installation of one automatic machine for assembling gas filters for the GAZ-51 truck has released 30 workers in the radiator shop. Only recently, 12 production sections have been made automatic and preparations are under way to automatize 22 other processes in machining and assembling automobile parts. The plant is increasing production of various types of mechanisms and automatic machinery for its own use.

Pravda, No 40, 9 Feb 50

In 1950, the Gor'kiy Automobile Plant will produce over 30 percent more Pobedas than in 1949.

CAN'T BUY AUTO SPARE PARTS -- Sovetskaya Estoniya, No 30, 4 Feb 50

A letter to the editor states that there are no stores in Tallin and in other Estonian cities which sell spare parts for automobiles, with the result that citizens must buy from speculators or send to Leningrad for the parts. Another problem facing the automobile motorcycle owner is the lack of special service stations in Tallin for either light or major repairs. Existing automobile shops do not stock reserve spare parts for the individual car owner.
